**Painting A Brighter Future Together
Phase I Update**

Construction of our 2,600 square foot
clinic addition is almost complete!

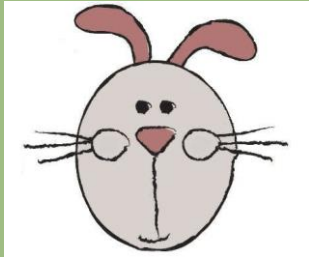

We will begin moving into the new space
over the next few months.

This expansion will ultimately allow us to perform
an additional 6,000 surgeries annually
and provides many upgrades and improvements
that we are eager to share with you!

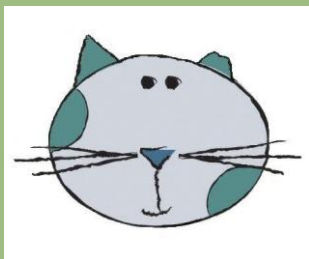

Thanks to you and all of our amazing donors,
we have currently raised \$287,000 toward
our \$450,000 Phase I goal!

**Ensure a brighter future
for animals with IHA!**

We have submitted a number of grant proposals to foundations and are hopeful that a portion of the remaining funding will be awarded.

However, this is an on-going campaign and we still need your support so we can reach this goal and move on to Phase II and III of the

Love For Pets

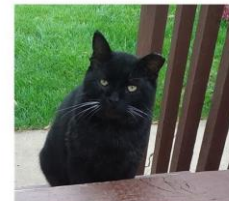

A trusted resource for undeserved communities

Your support makes it possible for the IHA Love For Pets program to provide outreach services for pet parents in under-resourced communities.

During this year's *Pet Fest* in North Liberty, we partnered with the Johnson County Humane Society to provide transportation, spay or neuter surgery and core vaccinations for 11 dogs and 14 cats!

Johnson County Humane Society (JCHS) is dedicated to spaying and
neutering free roaming cats in our communities and facilitates the
Florence Unash Fund
to assist with the cost of surgery for animals
within Johnson County.

Since IHA opened they have spayed and neutered over
1000 animals with Unash funding assistance.

We know that spaying and neutering not only reduces community cat
populations, it also improves their health. Felix is a free roaming cat
who has been cared for

at four colonies in North Liberty. He was estimated to be
at least 10 years old when he was trapped.

Since he's been neutered and vaccinated,
he's put on weight and he's got more pep in his step!
JCHS will continue to work tirelessly to spay and neuter
as many cats as we possibly can with the help of IHA.

Did you know....

IHA loans out live humane
traps for the purpose of
trap-neuter-return.
